

Table of contents

Introduction	5
Chapter 1. Static and dynamic Marshallian demand function and its properties.....	6
1.1. Static Marshallian demand function	6
1.2. Dynamic Marshallian demand function.....	26
1.3. Basic concepts	33
1.4. Exercises	34
Chapter 2. Models of competitive equilibrium	37
2.1. Simple model of exchange	37
2.2. Static Arrow-Hurwicz model	42
2.3. Dynamic Arrow-Hurwicz model.....	52
2.4. Basic concepts	67
2.5. Exercises	67
Chapter 3. Monopoly – determining optimal price and optimal output.....	69
3.1. Static approach	69
3.2. Dynamic approach.....	77
3.3. Basic concepts	84
3.4. Exercises	84
Chapter 4. Quantity and price competition in duopoly	87
4.1. Cournot duopoly model	87
4.2. Stackelberg duopoly model.....	106
4.3. Bertrand duopoly model.....	120
4.4. Basic concepts	136
4.5. Exercises	136
Chapter 5. General equilibrium models in the Walras sense	143
5.1. Market model with exogenous functions of supply and demand	143
5.2. Arrow-Debreu-McKenzie model.....	152

5.3. Basic concepts	170
5.4. Exercises	171
Conclusions.....	173
References.....	174
Figures	176
Tables.....	179
