

TABLE OF CONTENTS

INTRODUCTION	9
CHAPTER 1: THEORETICAL ASPECTS OF INNOVATION OF THE ECONOMY.	13
1.1. The concept and idea of innovation13
1.2. Types of innovation20
1.3. The importance of innovation in the business and the economy24
CHAPTER 2: FEATURES OF INNOVATION	33
2.1. Factors of innovation.33
2.2. Innovation strategies38
2.3. Innovative models.44
2.4. Innovation in models of economic growth45
CHAPTER 3: STATE INNOVATION POLICY	61
3.1. Features of innovation policy62
3.2. Instruments of innovation policy66
3.3. The role of the state in innovation policy69
3.4. The role of science in shaping innovation policy72
CHAPTER 4: INSTRUMENTS SUPPORTING BUSINESS INNOVATION IN THE EUROPEAN UNION	77
4.1. Software instruments77
4.2. Institutional and organizational instruments86

CHAPTER 5: INSTRUMENTS FOR SUPPORTING INNOVATION	
IN POLAND	97
5.1. Software instruments	97
5.2. Organizational instruments	103
5.3. Legal instruments of innovation policy	110
CHAPTER 6: ENTERPRISE INNOVATION IN THE VISEGRAD GROUP	
COUNTRIES	113
6.1. Characteristics of the Visegrad Group countries	113
6.2. Economic potential of the Visegrad Group countries	
and its determinants	117
6.2.1. GDP per capita	117
6.2.2. Labor costs	120
6.2.3. Weekly working time	122
6.2.4. Number of unemployed	124
6.2.5. Export level	126
6.2.6. People with higher education	130
6.2.7. Enterprise sector	133
6.3. Determinants of innovation in the Visegrad Group	
countries	136
6.3.1. Employment in the high and medium technology	
sector and R&D	136
6.3.2. Research and development expenditure	145
6.3.3. Export of high technologies	150
6.3.4. Intellectual property rights	152
6.4. Relationship between innovation and the economic	
potential of the Visegrad Group countries.	158
CHAPTER 7: INNOVATION OF THE VISEGRAD GROUP REGIONS	167
7.1. Characteristics of the Visegrad Group regions	169
7.2. Determinants of innovation of the Visegrad Group regions.	176
7.2.1. Employment in the high technology sector	176
7.2.2. Human resources in science and technology	180
7.2.3. Number of research workers and engineers.	184
7.2.4. Share of professionally active people with higher	
education	188
7.2.5. Employment in the research and development	
sector.	192
7.2.6. Employment rate in research	196

7.2.7. Gross domestic expenditure on research and development 201

7.2.8. The level of expenditure on research and development in the enterprise sector 209

7.3. Spatial diversity of innovation of the Visegrad Group regions 219

7.3.1. Assumptions for the methodical assessment of spatial diversity of innovation. 219

7.3.2. Assessment of spatial differentiation of innovativeness of the Visegrad Group regions 224

CONCLUSION 237
