Introduction.....	7
1. Internationalisation as a tool for increasing the dynamics of industry development	15
1.1. Mesoeconomics as research basis for industry development	15
1.2. Industry characteristics and their importance in the internationalisation process	26
1.2.1. The industry life cycle and the internationalisation process.....	26
1.2.2. Industry typology and its consequences for the internationalisation process.....	28
1.3. Research on the degree of industry internationalisation in international business.....	31
1.3.1. Industry internationalisation and globalisation–conceptual differences.....	32
1.3.2. The concept and meaning of the degree of internationalisation in international business.....	37
1.4. Degree of industry internationalisation–a review of empirical research.....	41
1.5. Operationalisation of the degree of industry internationalisation.....	44
1.5.1. Degree of industry internationalisation–outward approach	51
1.5.2. Degree of industry internationalisation–inward approach	54
1.6. Degree of industry internationalisation and level of industry development	55
1.7. The role of the state in shaping the degree of industry internationalisation	57
Summary	59
2. The degree of industry internationalisation–conceptual framework	60
2.1. Company internationalisation determinants from a mesoeconomic perspective	60
2.1.1. Resource-based determinants of the degree of internationalisation ..	64
2.1.2. Industry network embeddedness as a conceptual basis for degree of internationalisation research.....	65
2.1.3. Behavioural internationalisation models	67
2.1.4. New institutional economics in the study of the internationalisation process.....	68
2.1.4.1. The agency theory and the degree of internationalisation ...	70
2.1.4.2. Transaction cost theory and the degree of internationalisation.....	70
2.2. Levels of economic analysis and new institutional economics	72

2.3. New institutional economics in mesoeconomic analysis.....	74
2.3.1. New institutional economics as a supplementation to neoclassical economic analysis.....	74
2.3.2. Bounded rationality and opportunism as a conceptual basis for the new institutional economics	77
2.4. Transaction costs in degree of industry internationalisation research.....	80
2.4.1. The transaction costs notion–conceptual differences	81
2.4.1.1. Transaction costs as a consequence of property rights transfer	81
2.4.1.2. Transaction costs and the nature of transactions.....	83
2.4.2. The role of transaction costs in firm and industry level analysis	84
Summary	85
3. The degree of industry internationalisation from the perspective of new institutional economics–research and empirical model design.....	86
3.1. Research scheme and procedure	86
3.1.1. Level of industry transaction costs.....	91
3.1.2. Industry life cycle	92
3.1.3. Industry type	93
3.1.4. The degree of industry inward internationalisation	93
3.1.5. Technological advancement of an industry	94
3.1.6. Level of industry rivalry	94
3.1.7. The general macroeconomic conditions.....	95
3.2. Research sample selection and breakdown	96
3.3. Operationalisation of variables.....	100
3.3.1. Comments on the transaction cost operationalisation attempts	102
3.3.2. Measurement of transaction costs–applied approach.....	103
3.4. Research limitations	107
Summary	109
4. The impact of the economic crisis on the macroeconomic and industry situation in Poland.....	110
4.1. Europe’s developmental indicators between 2007 and 2015.....	110
4.2. The impact of the economic crisis on Poland.....	118
4.3. The situation of Polish industries during and after the crisis	122
Summary	128
5. The degree and determinants of industry internationalisation–the case of Poland	130
5.1. Degree of industry internationalisation measure–establishing the weights..	130
5.2. Degree of industry internationalisation and its characteristics–chosen aspects.....	134
5.3. An attempt at industry segmentation–cluster analysis through the lens of internationalisation	144
5.4. Industry internationalisation determinants in Poland.....	149

5.5. Degree of industry internationalisation and level of transaction costs–the impact of economic stability	157
5.6. Changes in the degree of internationalisation of Polish industries–a qualitative overview	159
5.6.1. Industry with the highest increase in its degree of internationalisation between 2007 and 2015.....	160
5.6.2. Industry with the highest decrease in its degree of internationalisation between 2007 and 2015.....	163
5.7. Internationalisation of Polish industries and governmental aid.....	167
5.8. Internationalisation of Polish industries and changes in the international arena.....	169
Summary	173
Conclusions.....	174
Appendix 1	
Delphi method study–questionnaire	179
Appendix 2	
Respondents in the Delphi method study–overview.....	181
Appendix 3	
Notes on the consolidation of financial statements.....	183
Appendix 4	
Indicators used in measuring transaction costs–profit and loss account by nature ...	185
Appendix 5	
Degree of industry internationalisation between 2007 and 2015	187
Appendix 6	
Ranking of activities during the economic crisis.....	211
Appendix 7	
Ranking of activities during the time of prosperity	214
References.....	217
List of Tables	234
List of Figures.....	237
List of Charts	238
